## **An Introduction To Edi Dicentral**

Electronic Data Interchange (EDI) is the computer-to-computer movement of routine business data in an approved standard format (e.g., ANSI ASC X12, EDIFACT or TRADACOMS).

Companies that decide to trade business data with each other using EDI are called trading partners. The trading partners must decide which transaction sets (EDI business docu-

## **EDI Communication - Understanding the Basics of EDI**

Electronic Data Interchange, otherwise referred to as "EDI", is the exchange of common business forms and documents between two or more organizations using a machine-based communications and archiving system. Common documents exchanged using Electronic Data Interchange include purchase orders, invoices and shipping documents. Electronic Data Interchange can be performed in a number of ways, but today is most often performed through desktop computers.
