Screening Requirements. The screening requirement in EMTALA reads as follows: In the case of a hospital that has a hospital emergency department, if any individual (whether or not eligible for benefits under this sub-chapter) comes to the emergency department and a request is made on the individual's behalf for examination or treatment for a medical condition, the hospital must provide for an appropriate medical screening examination within the capability of the hospital's emergency ...

Screening Requirements - EMTALA-INFO

What are the provisions of EMTALA? Hospitals have three main obligations under EMTALA: Any individual who comes and requests must receive a medical screening examination to determine whether an emergency medical condition exists. Examination and treatment cannot be delayed to inquire about methods of payment or insurance coverage.

ACEP // EMTALA Fact Sheet

If an individual is brought to the ED and law enforcement personnel request that emergency department personnel draw blood for a BAT only and does not request examination or treatment for a medical condition, such as intoxication and a prudent lay person observer would not believe that the individual needed such examination or treatment, then the EMTALA's screening requirement is not applicable to this situation because the only request made on behalf of the individual was for evidence.

EMTALA: What are medical screening examinations and by ...

Background. Several TN hospitals cited for OB EMTALA over the past year -18 months Citations focused primarily on the role of the RN in the medical screening exam Region 4 CMS opinion that TN Scope of Practice for Registered Nurses prohibits medical diagnosis and therefore RN can not do Medical Screening Exam for purposes of EMTALA.

EMTALA and OB Issues - tnpatientsafety.com

EMTALA requires that any patient who comes to a hospital's dedicated ED with what the patient believes to be an emergency medical condition must be given a medical screening exam by a qualified healthcare provider to determine if a medical emergency exists. EMTALA defines an emergency medical condition as one where a patient presents with acute symptoms (including

pain) of sufficient severity that in the absence of immediate medical attention could reasonably be expected to seriously ...

What does EMTALA mean for you? : Nursing Management

EMTALA and the "appropriate medical screening." Congress enacted the Emergency Medical Treatment and Labor Act ("EMTALA") in 1996 in response to claims that hospital emergency rooms were refusing to treat patients with emergency conditions but no medical insurance. EMTALA imposes duties on covered facilities, hospitals which accept Medicare funding with an emergent care department, to: (a) provide an "appropriate medical screening examination" for those who come to an emergency ...
