Happy Life Healing - Alternative Healing and Living

Healing by touch is based on the idea that illness or injury in one area of the body can affect all parts of the body. If, with manual manipulation, the other parts can be brought back to optimum health, the body can fully focus on healing at the site of injury or illness. Body techniques are often combined with those of the mind.

Information and resources from the National Center for Complementary and Integrative Health, U.S. National Institutes of Health (NIH). The mission of NCCIH is to define, through rigorous scientific investigation, the usefulness and safety of complementary and integrative health interventions and their roles in improving health and health care.

National Center for Complementary and Integrative Health

Alternative medicine is any practice that aims to achieve the healing effects of medicine, but which lacks biological plausibility and is untested, untestable or proven ineffective. Complementary medicine (CM), complementary and alternative medicine (CAM), integrated medicine or integrative medicine (IM), and holistic medicine are among many rebrandings of the same phenomenon.
