### JUNE 2009 Chemistry Regents Question and ... - Yahoo Answers

wat did u guys think of the chem regents today? i thought it was pretty fair im just hoping for above a 90. there were some triky questions: the one with the volume and pressure and temperature of the helium gas (it was in the short answers). wat was the answer? wat was the answer to y the arsenic have different densities. compare the solubility of CO2 to the temperature of the aqueous ...

### chemistry regents June 2009? | Yahoo Answers

The answer for arsenic density that you put is right, but I was dumb and I put that one sample of arsenic would have more density than the other because one had metallic bonds and the other was too weak to create dense network solids. Its always good to be concise and general on the regents.
