Inside, you'll find a medium-sized light green and a medium-sized red wire. The green is for the driver's side turn signal and the red is for the passenger side. For the driver's side mirror cover wiring, the non-ground wire will need to be spliced into the green; do the same for the passenger side mirror.

Look for the mirror adjustment buttons on the left of the steering column. If you leave the "LEFT" or "RIGHT" rocker switch in either the "L" or "R" position vs the "center" position, the mirrors will fold downward while in reverse. If you leave the switch centered, the mirrors will not fold down in reverse.
