Even if your interest lies in making wooden lures other than top water; you will benefit from my woodworking and wooden lure painting tips.

Wooden Lure Making

Another option is to carve or sand the turned body, before or after painting, to make the lure attract more piscine attention as it moves across the water. Carving the head end of a lure will make it wobble or dive, much like hollowing on the lathe. A bit of sanding can dramatically change a turned lure's appearance (Photo 10).
