### Site Analysis Diagrams | Visualizing Architecture

You can create a site analysis diagram through illustration, digital representation, photography and sculpture (physical modelling), but the most popular and most versatile is via a digital method. Computer generated graphics just give the creator the largest array of possibilities and tools to work with, and remain entirely flexible.

### Architecture Site Analysis Diagrams and Symbols ...

Site analysis is a preliminary phase of architectural and urban design processes dedicated to the study of the climatic, geographical, historical, legal, and infrastructural context of a specific site. The result of this analytic process is a summary, usually a graphical sketch, which sets in relation the relevant environmental information with the morphology of the site in terms of parcel, topography, and built environment. This result is then used as a starting point for the development of env
