clock radio that is fairly user-friendly. Unlike with most alarms, you do not need to set the time (as long as you're in the U.K.), but you do need to set the alarm time. It also displays the date and allows you to automatically adjust for U.K. daylight saving time and set the amount of snooze time.

0 I think what no one is spelling out is that the Numbers themselves do not get brighter. It's the overall lighting of the Screen that changes - which doesn't help visibility of the time hardly at all. I was certain that hitting the snooze button was doing nothing when I tried this during the day, but in a completely dark room it was easy to see that
