Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

### ECG Semiconductors Master Replacement Guide: Phillips ECG ...

ECG and NTE use the same device numbering system, but the SK numbering system is completely different. Each company has traditionally published its own thick printed replacement guide or cross reference, and more recently computer software (the replacement guides and software also cross-reference each others part numbers).
