...

Not only does engagement in collaborative action research make the act of teaching far less lonely, but in schools where teachers learn and grow, students tend to prosper and improve. With each successful locally developed school improvement the faculty’s sense of community deepens, as does its commitment to the process of professional learning.

The project was also found to be important in improving the action research practice of the school. Our evaluation of the project also implied that collaborative action research, if properly and wholeheartedly conducted, is an effective strategy in strengthening school-college linkage that ultimately helps each institution to learn and benefit from the other.
