How do You Fix a Crick or Kink in the Neck while Sleeping? Answer: Sleeping positions play an important role in managing pain in the neck. It is typically recommended to sleep on the back or on the side. Sleeping face down is not healthy for the neck and can increase the chances of having a kink when you wake up. Having a good pillow is also important. The best pillow for neck pain is one that places the neck in a neutral or straight position.

Common Causes of Kinks in Your Neck
Usually, a kink in your neck occurs due to a strained muscle or soft tissue. The most common injured muscle is the levator scapulae muscle, which connects the shoulders to the cervical spine of the neck. It can be sprained or strained by various positions and movements made throughout the day and night, such as:
