Pyrantel Parasiticide Therapy in Humans and Domestic Animals presents a single source history and reference on the parasiticide activity and pharmacology of the tetrahydropyrimidines and their salts in humans and domestic animals, also collating evidence that resistance to pyrantel has developed in human and domestic animal nematodes.

Pyrantel Parasiticide Therapy in Humans and Domestic ...

The scientific interest for pyrantel (PYR) in human anthelmintic therapy originates from the promising efficacy results against experimental hookworm (*Ancylostoma caninum*) infections in dogs reported in the late 1960s. In the years that have followed, various regimens of the drug have been validated against a variety of human intestinal helminths, including the soil-transmitted heminths (STHs ...
