Introduction: Despite the prevalence of intimate partner violence (IPV), there is a paucity of research exploring the role that physicians might play in intervening with IPV perpetrators. Methods: A qualitative study explored interactions between family medicine physicians and male perpetrators of IPV. Fifteen physicians were purposefully sampled from 1 hospital system.

### Physicians' Experiences with Male Patients Who Perpetrate ...

Homicide reviews and analyses have consistently documented an over-representation of immigrant and refugee women among IPV-related homicide victims compared with U.S. born women. This guide intends to help mental health providers in treating IPV survivors. It includes definitions associated with IPV, data on the prevalence of IPV, and the impact of IPV on survivors and their families.
